SETTING GOALS FOR 2021

After an exceptionally long and trying 2020, you may be excited to start a brand-new year with new goals and resolutions. Whether you want to reorganize your finances, start a weight loss journey, work toward a career promotion or even set aside more family time, a new year is the perfect time to get started. Use these 4 tips to help you set realistic and achievable goals for 2021!

1. Make goals measurable

Smart goals need to be repeatedly measurable over short periods of time so you can consistently see that you're on the right track or identify areas you need to work harder on as time goes by.

2. Ensure your goals are time-sensitive

Break your goals down into smaller tasks and assign deadlines to each. Focusing on small weekly or monthly goals that build up to a larger annual goal will help you see your progress and keep you motivated throughout the year.

3. Write down goals & review periodically

Jot down your goals and keep them visible in your everyday space (i.e. taped to your bathroom mirror) so they stay top of mind.

4. Find a buddy

It helps to have an accountability partner for your goals! Share your goals with a friend or family member who can help you stay the course and keep you motivated.
